Healing In His Wings

Discussion Summary

We asked each table to assemble a group of statements which everyone at their table could get behind. We then posted these lists and (as the full group) discussed which one the whole group would be able to support.

Everyone's voice needs to be heard and valued

We need to affirm and support God's calling in the lives of others

The church needs to set an example on how to lovingly disagree

Compassion

Respect

Acceptance

We should respond as loving, honest, and truthful disciples of Our Lord Jesus Christ.

We should seek to do as Jesus would do.

We should value unity in spite of our differences

We should commit ourselves to producing "good" spiritual fruit.

We should reaffirm publicly that our church is open to all and embraces everyone.

We need to develop a policy about lay people serving as church leaders, teachers, etc.

We should remain unified as a local United Methodist Church.

We need more scriptural study on the issues and concerns surrounding this question

We need to remain open to all.

We need to speak and listen with love, openness, and honesty.

We need to seek inclusiveness, not just tolerance.

Affirm God's call for all people.

We need to seek peace and acceptance with the eventual outcome.

Truth + Grace =love.

Locally, we remain United Methodists, even in our disagreement

We need to become more scripturally literate.

We need to meet again to eat Adrianna's cooking
